

CHAPTER I**IDENTIFICATION OF DATA SOURCES ON TEACHERS**

This Chapter identifies the various documents consulted for the purpose of developing a tentative list of lay teachers who taught in Alberta's rural bilingual school districts between 1885 to 1939. The term "bilingual school districts" refers to the 118 school districts established in Alberta by French-speaking settlers during the period 1885 to 1939 (1). These districts were usually administered by French-speaking trustees who permitted the teaching of a Primary Course in French in accordance with the School Act's Regulations Governing the Teaching of French (2).

The information in Chapter II pertaining to teachers' names and the years during which they taught in the bilingual school districts was gathered from the following documents:

ALBERTA DEPARTMENT OF EDUCATION FILES—CORRESPONDENCE WITH BILINGUAL SCHOOL DISTRICTS.

This collection is stored at the Provincial Archives of Alberta. The documents consulted in these files were as follows: letters; Inspectors' Reports; School District Minutes of Meetings; Daily Registers; School Attendance Returns; School District Cash Books; and, Teacher Employment Contracts. The Accession Numbers for retrieving documents from this collection can be found in the following reference guide at the Provincial Archives of Alberta: Mahé, Yvette T. M. (1989) School Districts Established by French-speaking Settlers in Alberta: 1885-1939. Volume I, Identification of Bilingual School Districts. Edmonton, Alta.: Faculté Saint-Jean, University of Alberta.

L'ASSOCIATION CANADIENNE-FRANCAISE DE L'ALBERTA.

This collection, which is stored at the Provincial Archives of Alberta (Accession No. 80.226), contains the reports kept by Father Portier, S.J., who acted as the "visiteur d'écoles bilingues" during the period 1934 to 1940.

Some of Father Fortier's reports contain information on teacher ethnicity, education, salary received, and the amount of time the teacher devoted to the teaching of French and religion.

FRENCH NEWSPAPERS PUBLISHED IN ALBERTA BETWEEN 1898 TO 1939.

The French newspapers published in Alberta between 1898 to 1939 provided a very limited source of information on teachers who taught in the bilingual schools. The Library, Faculté Saint-Jean, University of Alberta has a collection of the following newspapers on microfilm;

L'Quest Canadian. Edmonton, 1898-1900.
Le Courrier de l'Quest. Edmonton, 1905-1914.
Le Canadien-Français. Organe de la Société Saint-Jean
 Baptiste d'Edmonton, 1915-1920.
Le Progrès. Morinville, 1909-1913.
Le Progrès Albertain. Edmonton, 1914-1915.
L'Etoile de St. Albert. (The St. Albert Star), 1912-1914.
La Survivance. Edmonton, 1928-1939.

L'Union. Edmonton, 1917-1929. L'Union can be found at the
 Legislative Library in Edmonton, Alberta.

L'ASSOCIATION DES INSTITUTEURS BILINGUES DE L'ALBERTA.

This collection, which is located at the Provincial Archives of Alberta (Accession No. 80.283), contains some information on individual teachers.

REPORTS OF THE BOARD OF EDUCATION FOR THE NORTHWEST TERRITORIES, AND ANNUAL REPORTS OF THE DEPARTMENT OF EDUCATION OF THE PROVINCE OF ALBERTA, 1906-1939.

These Reports, which are available on microfilm at the Provincial Archives of Alberta (Accession No. 72.275/1), or in report form contain very little information on individual teachers.

LOCAL HISTORIES OF COMMUNITIES SETTLED BY FRENCH-CANADIANS.

The local histories consulted included:

DATA ANALYSIS AND FINDINGS.

A total of 452 lay teachers' who taught in Alberta rural bilingual school districts between 1885 to 1939 were identified and their names were recorded on

index cards. These index cards were divided according to teacher gender. A system of cross-referencing was carried out, when the data was available, in order to link a female teacher's maiden name to her married name. It was found that out of the total of 452 teachers, 316 or 69.9% were females, 116 or 25.7% were males, and no reference as to the gender was available for 20 or 4.4% of the teachers.

The limited data available on teacher retention suggested the following insight: That both female and male teachers appear to have moved in rapid succession from school to school, staying at one place on the average of one to three years.

CONCLUSION.

This list of teachers, even though tentative due to the scarcity of archival materials on the lay teachers who taught in Alberta's bilingual school districts between 1885 to 1939, could provide researchers with a starting point for investigating the ethnicity, educational background, salaries, working conditions, and mobility of teachers who taught in the bilingual schools. Other documents which could be investigated include: Teacher Certification Records; Normal and Summer School Records; census records; community and family histories or reminiscences; teacher diaries; and, interviews with teachers' descendants.

1. Mahé, Yvette T. M. (1989) School Districts Established by French-speaking Settlers in Alberta: 1885-1939. Volume I, Identification of Bilingual School Districts. Edmonton, Alta.: Faculté Saint-Jean, University of Alberta.

2. In 1892 under Ordinance No. 22 of the *Ordinances of the North-Vest Territories*, English was declared the language of instruction, and a language clause provided that, "It shall be permissible for the Trustees of any School to cause a primary course to be taught in the French language" (in Keith A. McLeod. (1979) "Politics, Schools and the French Language, 1881-1931," *Shaping The Schools of the Canadian West.* Edited by David C. Jones, Nancy M. Sheehan, Robert M. Stamp. Calgary, Alta.: Detselig Enterprises Ltd.). In

1896, Ordinance No. 22 respecting the teaching of languages was formulated as follows under The School Ordinance No. 2, Section 106; "All schools shall be taught in the English language, but it shall be permissible for the trustees of any school to cause a primary course to be taught in the French language." This Ordinance remained in effect after Alberta became a province in 1905 under Section 136 of The School Act with minor changes being made in the wording. The term "trustees of any school" was replaced by "Board of any district." Section 136 remained in effect beyond the 1940's. In 1925 the Department of Education provided an official interpretation of Section 136, which by then had become Section 184 of The School Act, in a document entitled Instructions Concerning the Teaching of French in the Elementary Schools of the Province of Alberta. Section 184 was interpreted as follows:

In all schools in which the board by resolution decides to offer a primary course in French, in accordance with Sec. 184 of the School Ordinance, French shall be for the French-speaking children one of the authorized subjects of study and may be used as a medium of instruction for other subjects during the first school year. Oral English must, however, from the beginning be included in the curriculum as a subject of study.

During the second year and after the child has learned to read in the mother tongue, the formal teaching of reading in English shall be begun.

From Grade III on, a period not exceeding one hour each day may be allotted to the teaching of French. The term "French" as herein used shall include reading, language study, grammar, analysis, dictation and composition (Department of Education, Alberta, p. 1).

These 1925 regulations remained in effect beyond the 1940's.
